MORE AND MORE EUROPEAN RANGE

QualityTested®
Automotive SpareParts

A LEADING COMPANY IN THE AUTOMOTIVE AFTERMARKET WORLD.

Founded nearly 40 years ago with the goal of offering a complete and high-quality range of spare parts for Asian vehicles, JAPANPARTS srl has grown into a key player in the global aftermarket, now covering European and American applications as well.

Distributed under the brands Japanparts, Ashika, Japko, and Quality Tested, the company's range is extensive and constantly evolving – with over 165 product lines and more than 56,000 part numbers listed in the catalogue.

The offering includes mechanical components (such as filters, brake pads, hydraulics, shock absorbers, clutches), electrical parts (starters, alternators, spark plugs, glow plugs), and engine overhaul parts (pistons, cylinder heads, bushings, etc.).

Every product is sourced from highly reliable manufacturing partners, carefully selected according to Japanparts Srl's strict quality standards.

Thanks to its wide product coverage, consistent quality, and strong global distribution, Japanparts Srl stands today as a benchmark in the aftermarket sector – able to compete with the most renowned international players in terms of product depth, reliability, and service.

COMPLETE AND UPDATED RANGE, WIDESPREAD DISTRIBUTION NETWORK.

Japanparts Srl continuously updates its product range to meet the evolving needs of the automotive repair industry – both by expanding the catalog and adding new part numbers.

Thanks to a carefully selected network of top-tier distributors, Japanparts products are available in over 70 countries worldwide, ensuring rapid and reliable supply across key markets.

The company also boasts strong international market penetration, with a network of over 400 partner companies across the main global regions. This extensive distribution footprint allows Japanparts Srl to serve customers worldwide with efficiency and consistency.

EFFICIENT LOGISTICS FOR OUTSTANDING SERVICE.

Customer service is one of the company's key strengths, supported by a state-of-the-art logistics system that leverages the latest technologies in inventory and warehouse management.

Our warehouse covers a total storage area of 70,000 square meters, with 8 kilometers of shelving reaching up to 9 meters high. On average, we process around 15,000 order lines per day, maintaining a 95% availability rate on fast-moving items.

All logistics operations are managed through advanced software systems, allowing us to prepare and dispatch orders within 24 to 48 hours, ensuring fast, accurate, and reliable service to customers worldwide.

FAST DELIVERY IN ITALY AND ABROAD.

Every product distributed by Japanparts Srl is backed by prompt and reliable customer service. Orders are processed within a maximum of 48 hours, with delivery completed in 48 to 72 working hours across mainland Italy. For Southern Italy, the islands, and international destinations, delivery is typically completed within 5 working days.

The company handles over 500 urgent orders daily, which are fulfilled within 24 to 48 hours from the time of receipt – ensuring speed and precision even for time-sensitive needs.

DIGITAL, ACCESSIBLE, AND MULTICHANNEL COMMUNICATION

Searching, selecting, and accessing product information has never been easier, thanks to advanced digital tools and clear, effective, and constantly updated communication.

In addition to traditional printed catalogs, Japanparts Srl is featured on all major industry platforms, including TecDoc, Q Ricambi, Clip Parts, and Kromeda, ensuring maximum data visibility and interoperability. Our digital ecosystem is powered by AI-based technologies, detailed product images, technical specifications, and advanced search systems – offering a fast, accurate, and seamless purchasing experience for all our customers.
